

# GOOD CLINICAL PRACTICE (GCP) Basic Course for Support Staff

2018

## Introduction

In addition to the clinical personnel, a research team may include a number of support staff who recruit participants, take informed consents, counsel participants, transport participants, carry out laboratory procedures, capture data, etc. It is imperative that this category of staff understands the concept of research on human subjects, the guidelines that govern the conduct of this research, the roles of the study team and the importance of their role in the greater team.

## Course Overview

This comprehensive GCP course is tailored for the needs of support staff. The course covers current ICH and SA Good Clinical Practice guidelines and practical exercises applicable to this category, are included. Certificates are issued on the successful completion of an open book post-course assessment.

## Course Content

- Drug Development Process
- Development of GCP
