GCP BASIC COURSE

R 3,500 Incl VAT (Non -WHC)

R 2,390 Excl VAT (WHC)

Discounts apply to groups

Classroom based
(also available online)

1½ days

Medical research involving human subjects is strictly controlled by the South African Health Products Regulatory Authority (SAHPRA); DOH and Ethics Committees.

It is mandated that the research team be well versed with the International (ICH) and SA Good Clinical Practice guidelines. Each member of the team must be in possession of a valid, accredited GCP certificate.

The course has 7 modules including a "Test your knowledge" at the end of each module:

- Introduction
- Module 1: Introduction to Clinical Trials
- Module 2: The development of Good Clinical Practice (GCP)
- Module 3: GCP in South Africa
- Module 4: Audits and Inspections
- Module 5: Genetic Research Trends
- Module 6: Patient (Participant) Recruitment and Retention
- Module 7: Litigation in Clinical Trials

The GCP Basic course is an introductory 1½ days course that provides a detailed overview of clinical research, the current ICH and SAGCP guidelines, as well as the process of conducting successful clinical trials from start to finish.

Investigators, clinicians, study coordinators, scientists and project or site managers new to clinical trials.

Parktown, Johannesburg

In-house training and travel to other areas will be considered subject to viability.

At the end of this course, learners will be expected to complete a final assessment:

- There are 50 multiple choice questions.
- The pass mark is 70%.
- Learners have (2) attempts.
- A certificate will be issued on passing the assessment.
- CPD Points will be issued on completion.
